Evergreen Park Elementary School District 124 Welcomes a New Superintendent of Schools

The Board of Education approved a three-year contract for Dr. Diane Cody to serve as the next Superintendent of Schools for Evergreen Park Elementary School District 124 with the starting date of her assignment July 1, 2009. Dr. Cody currently serves as Superintendent of Schools for Winfield Elementary School District 34, Du Page County, Illinois, a position she has held since July, 2003. Prior to this assignment, Dr. Cody's professional background included experience as an Assistant Superintendent for Curriculum and Instruction, Principal, Math Coordinator, Assistant Principal and Adjunct Instructor and Teacher.

During her tenure with District 34, the Winfield School District has significantly improved student achievement scores on the Illinois Standards Achievement Tests (ISAT); the state-wide assessment program used to measure student, school and district performance. Dr. Cody has been responsible for the development of a five-year strategic plan, the establishment of action plans to implement the goals and alignment of resources to support the Winfield School District strategic plan. Additionally, Dr. Cody has created and managed budgets, facilitated a financial task force to evaluate district finances and moved the school district from deficit spending to a balanced budget. She has also been responsible for managing and supervising a \$9.5 million construction project during her career with the Winfield School District.

Dr. Cody has a Bachelor of Science Degree in Elementary Education from the University of Nebraska, a Masters Degree in Mathematics Education from the University of Illinois at Chicago, a Masters Degree in Educational Administration from Northern Illinois University and a Doctorate in Educational Administration from Loyola University.

Dr. Cody was asked to answer a few questions for this article as a way for community members to learn more about her background and interest in the Superintendent of Schools assignment. Here are her responses....

Q: Share with the community highlights about your entry plan as a result of your appointment as Superintendent of EPSD 124....

I was fortunate to be hired early in the school year which has allowed me time to get to know the Board of Education and administrators. In March, I met with staff members from each school and asked for their insights into the district. Their input has been very helpful to me in learning more about all aspects of the district.

2008 – 2009 Board Meeting Dates

Location:

Central Junior High
School, Multi-Purpose
Room

May 20, 2009
June 10, 2009

Welcome Superintendent Con't...

The timing of my hiring could not have been more perfect. As the district has worked to develop a Strategic Plan, I have participated each step of the way. This plan will guide us into the future, providing the best education possible for our students.

Q: What excited you about this assignment... tell us why you have decided to move to a new assignment and, in particular, why EPSD 124?

I have lived in the Chicago area for 25 years. Over and over again, I would hear very positive comments about the community of Evergreen Park. People grew up here, raised their families here, and their children continue to live here as adults. This is a strong school district and a strong community that demonstrate solid values. Who wouldn't want to work here? I can't wait to officially get started on July 1. I look forward to meeting parents and community members in the near future.

Q: Tell the readers something about yourself, background, interests, family ... a personal touch if you feel comfortable in sharing this information.

I grew up on a farm outside of Omaha, Nebraska. My parents told me that from the time I was a child, they always knew I would be a teacher. My teaching career began as a fifth grade teacher and later as a junior high math teacher. Although I left the classroom to become an administrator, I believe I still remain a teacher. My students are no longer children, they are adults. As much as I love to teach, I also love to learn. I'm grateful to be in a profession where we value both learning and teaching.

I am married and have three children, two sons and a step-daughter. Nothing makes me happier than spending time with my family. I do love to sew and began sewing when I was seven years old. It remains one of my favorite hobbies. Now that spring weather has finally arrived, I am thrilled to spend time outside walking, another one of my favorite things to do.

Please join the Board of Education in welcoming Dr. Cody to Evergreen Park Elementary School District 124.

2009 Summer School Program

Summer school will be offered to students in need of additional reading support for a five-week period during June and July, 2009. The summer school program will be held at Northeast Elementary School with the five-week program running Monday through Thursday for the weeks from June 22, 2009 through July 23, 2009. The purpose of the 2009 summer school program is to provide intensive, direct instruction in language arts to students entering Kindergarten through 8th grade. The summer school program will provide interventions with the goal to close a student's reading achievement gap. In addition to the five-week summer school program, the district will also provide a three-week summer band program, which will operate during the following dates at Central Jr. High School: July 6 - 9, 13 - 16 and 20 - 23.

The five-week summer school program will focus on the area of reading; addressing specifically the following components: phonics, phonemic awareness, fluency, and vocabulary development. Students will be clustered in small groups by grade level. Whole group instruction as well as individualized centers will be developed. The program will also include small group instruction and "hands on" learning to ameliorate gaps in student achievement. Class sizes will be kept low with an average ratio of 1 teacher per 10-12 students to support intensive literacy instruction during the 9:00 a.m. to 11:00 a.m. school attendance day.

Families will be invited to participate in the five-week summer school program with invitations to be distributed to families during April. For more information about the 2009 summer school program please contact Alice Spingola at Southeast School #708/229-8413 ext. 2669.

SCHOOL CALENDAR 2009-2010

August 24	New Teachers Orientation
August 25, 26	Teacher Institute Day – No student attendance
August 27	First day of classes & Before School – Students dismissed at 11:30
August 28	Students dismissed at 11:30 a.m.
August 31	First day of classes: After School, Early Childhood, Pre-K, Kindergarten
September 7	Labor Day - School closed
September 23	Students dismissed at 11:30 a.m. – School Improvement Day
October 12	Columbus Day – School closed
October 21	Students dismissed at 11:30 a.m. – School Improvement Day
October 30	End of Quarter
November 6	Report Cards
November 11	Veteran's Day – School closed
November 23	No Student Attendance – Parent-Teacher Conferences – 1:00-7:55 p.m.
November 24	No Student Attendance – Parent-Teacher Conferences – 12:05-7:00 p.m.
November 25, 26, 27	Thanksgiving Vacation – School closed
December 9	Students dismissed at 11:30 a.m. – School Improvement Day
December 18	Students dismissed at 2:00 p.m.
December 21 – Jan 1	Winter Vacation – School closed
January 4	Classes Resume
January 18	Martin Luther King's Birthday – School closed
January 22	End of Quarter
January 29	Report cards
February 2	Teacher Institute Day – No student attendance
February 15	President's Day – School closed
February 24	Students dismissed at 11:30 a.m. – Parent-Teacher Conferences
March 1	Casimir Pulaski Day – School closed
March 1-12	Illinois State Achievement Testing
March 17	Students dismissed at 11:30 a.m. – School Improvement Day
March 26	End of Quarter
April 1	Report Cards
April 2 – 9	Spring Break – School closed
April 12	Classes Resume
April 21	Students dismissed at 11:30 a.m. – School Improvement Day
May 12	Students dismissed at 11:30 a.m. – School Improvement Day
May 31	Memorial Day – School closed
June 3	Last day for Early Childhood, Pre-K, Kindergarten Students
June 4, 7, 8	Kindergarten Screening
June 8	End of Quarter
June 8	Graduation (tentative date)
June 9	Teacher Clerical Day – No student attendance
June 10	Last Day of School – Students dismissed at 9:30 a.m. (Assuming we do not have to use emergency days) Report cards
June 11, 14,15,16,17	Emergency Days if needed due to school cancellations

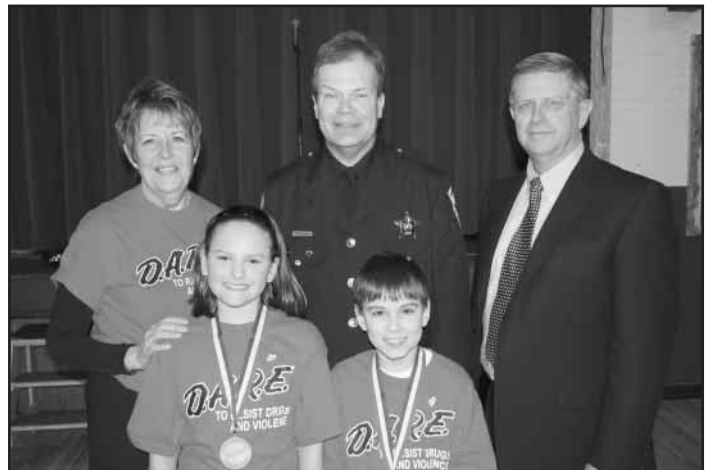

Drug Abuse Resistance Education (D.A.R.E.) Ceremonies

Our school district collaborates with the Village of Evergreen Park Police Department in providing a ten-week Drug Abuse Resistance Education program, better known as D.A.R.E. to our fifth grade students. D.A.R.E. is an international education program that provides instruction to our students to prevent the use of illegal drugs, membership in gangs, and about Internet safety. Officer Jeff Butkus and Officer Axel Schulz, from the Evergreen Park Police Department, were the D.A.R.E. instructors at our elementary schools during the ten-week program. The D.A.R.E. program uses an interactive in-school curriculum to help students learn about peer pressure, ways to say “no”, gateway drugs and their effects on your health and well-being, ways to stop gang involvement and Internet safety. As an example, students learn about eight ways to say NO to drugs, those being: 1) Saying, “NO THANKS”, 2) giving a reason or excuse, 3) repeated refusal, or keep saying no (broken record), 4) walking away, 5) changing the subject, 6) avoid the situation, 7) cold shoulder, and 8) strength in numbers.

D.A.R.E. Culmination Ceremonies were held at Northeast, Northwest, Southeast and Southwest Elementary Schools during the week of February 23 – 27 to recognize fifth grade students on completion of the ten-week D.A.R.E. program. Each ceremony included the reading of student essays and presentation of certificates on completion of the coursework. We are very appreciative of the support provided by the Village of Evergreen Park - Mayor Jim Sexton, Chief Mike Saunders, Sgt. Jack McCarthy, Officer Jeff Butkus and Officer Axel Schulz. Additionally, we appreciate the hard work of the Principals and fifth grade teachers at our four elementary schools - Jeff Nightingale, John Stanton, Shaton Wolverton, Denise Thomas, Kari Nee, Alice Hawkinson, Jill Price, Sue Parker, Eileen Foley, Maria Pudliner, Lisa Rogers, Tara Daniher, and Christine Grebenor, in the completion of this annual program for fifth grade students.

Fifth grade students and their guests listen intently during the Southwest D.A.R.E. culmination ceremony.

Essay winners, Sydney Cerrantano and Andrew Klimczak, are proudly joined by Ms. Thomas, Officer Schulz, and Dr. Weck.

The Northeast 5th grade students perform the DARE song.

Ms. Price's 5th grade class at Northwest School took time for a picture with Officer Schulz on DARE graduation day.

A Message from Northeast Elementary School

News & Highlights

How can it be spring and the fourth quarter already? This year has really flown by. It has been an eventful winter, filled with hard work and great activities. The students and staff at Northeast have really made this a great year.

Our primary students produced and performed their annual winter show in December. We had large crowds for all three performances. The students did a wonderful job, and really seemed to enjoy themselves. Watch for the spring show with the intermediate students in May. It is amazing to see all of the talents of our students in action.

In February, our fifth grade students completed the DARE program, with a culminating "graduation." Various community dignitaries joined us in honoring the students and their achievements. Each student composed an essay detailing the lessons and his or her commitment to a drug free life. This is a valuable program, with an essential message that everyone should value. Thank you to Officer Butkus for his hard work, and congratulations to all of the participants!

With every spring comes the ISAT test for the third through sixth grades. The hard work and dedication of all of the staff and students was obvious during this stressful time. This is an important event for our school and school district, and I am sure that the scores will make all of us proud. The dedication to learning at Northeast is evident every day, and our students are sure to succeed in whatever they attempt. We work very hard throughout the year giving students the tools necessary to succeed on various tests, and in life in general.

PBIS continues to be a focus at Northeast. Our students have earned several celebrations including a game day and a karaoke party. We appreciate all of the support we get from home in encouragement of PBIS; the students' dedication to making Northeast a positive learning environment is obvious on a daily basis. The success of this program is reinforced every time the students leave our building and return with positive reports and praise from the teachers. It is great to see the Northeast students being role models in our community!

Another successful event was our Open House and Scavenger Hunt. Northeast's staff and students always look forward to this event. Students have a chance to take their families around the school searching for various

items and answers to questions. This has been a great way to get people in to see the wonderful happenings at our school. Several prizes were awarded, including a gift certificate from the PTA. There was a tremendous turnout, and the hallways were filled with students and families.

This has been a very successful year to this point. We look forward to a fantastic finish, with all of our students working hard and doing their best!

Some of Northeast's 6th grade students were re-teaching the Cool Tools at an assembly. This group was working on "Leave Your Attitude At The Door"

Some Northeast students and their families look for clues and count bunnies during our Open House and Scavenger Hunt

A Message from Northwest Elementary School

News & Highlights

This year our students had many opportunities to give back to society. The Northwest Student Council sponsored many events to help others. Pop tabs were collected for Hope Children's Hospital. This also was a part of the Northwest Spirit Week sponsored by our PTA. They also recognized that our troops were in need of specific items and organized a collection of those items to be sent to them. Locally, they sponsored a food drive to help the Food Pantry. The Leukemia and Lymphoma Society contacted us to see if we were able to help them. "Pennies for Patients" was organized under student council. Their efforts raised \$637.72 for this cause. The American Heart Association worked with Mrs. Normoyle and Mr. Santor, our PE teachers, to organize Jump Rope for Heart. This event not only promoted a healthy life style with exercise and good nutrition, but also provided the school with another opportunity to help others. The students raised \$1500.00 for the American Heart Association. We also are trying to help others with a more global effort by recycling. Paper is collected daily from the recycle bins in all of the classrooms and offices. Something new we did this year was to help support the St. Baldrick's Foundation. St. Baldrick's was started in 1999 by three executives that turned an annual St. Patrick's Day party into a fundraising event to help children with cancer. The three executives had hoped to raise \$17,000.00 by recruiting 17 colleagues to raise \$1,000.00 each. That first event ended up raising over \$104,000.00. History has a way of repeating itself! I was contacted by Mrs. Westphal, a parent, who wondered if we would be interested in participating in supporting this foundation. Never having done this before, we had no idea of what to expect. Our event took place on St. Patrick's Day. Family, friends and staff of Northwest were invited to participate. We had a total of 66 people that registered to have their heads shaved and approximately another 16 people that included barbers and other volunteers to help the event be successful. The student body showed their support by making signs to encourage their classmates, teachers and friends. Two students, Maggie Zofkie and Hannah Ricci, helped entertain the students with Irish dancing. Southpaw, the mascot for the White Sox, also visited the students. Bagpipe music was provided by the Stockyard Kilty Band and Fox News reporter, Patrick Elwood also was here to support us. We cautiously set a fundraising goal of \$3000.00 so as not to

discourage the participants. Much to our surprise and delight, our efforts have raised over \$19,000.00 in online donations! The slogan of the Fox Schools Challenge certainly encompasses all of the efforts that Northwest School has undertaken this year, which is "Together we can make a difference!"

The Stockyard Kitty Band performs for Northwest School on St. Baldrick's Day.

5th grade students (and yes, there is a girl there!) enjoy the St. Baldrick's Day activities after having their heads shaved.

A Message from Southeast Elementary School

News & Highlights

This school year has flown by! With only a few months of school left before we say goodbye for the summer, we will continue to work vigorously to support all students. This year marks the first school year where we have used the Response to Intervention Model to support students who need additional support in the area of reading. Through this process we have utilized a system, which allows us to meet the needs of all students in the area of reading. We have found many students making steady progress with intervention supports. Our students who have received intervention support this year have worked very hard and the smiles on their faces are evidence that they feel just as good about their accomplishments as the Southeast staff.

We continue to keep Positive Behavior Interventions and Supports at the forefront of our school's daily expectations. Students continue to work towards being infraction-free and we are so proud of them. We celebrate with our students as they work towards mastering the universal behavior expectations. Our most recent celebration was an assembly with Matt Wilhelm, an X-Games Bicycle Medalist. Matt shared with the students the message of never giving up and working towards your personal goals regardless of the number of times that you fail. His message of perseverance had a profound impact on students of all ages.

Students have also been encouraged to participate in extra-curricular activities throughout the school year. This year our students had an opportunity to participate in an art, chess, drama and scrabble club. These activities provide fun ways for students to challenge themselves and explore areas outside of the academic area where they may shine. Many students took advantage of these opportunities and seem to thoroughly enjoy the outlet that they provide. The chess club recently ended with a chess tournament where four of our students received trophies from Mr. Tony Demma, Chess Club Coordinator. Though our top winners received trophies; in our eyes everyone who participated is a winner.

In January our PTA provided an Abraham Lincoln assembly for our students. This was an enjoyable event and students learned many things about our sixteenth president. Our students recently celebrated the 50th birthday of Southeast School. Our PTA again spent countless hours organizing this wonderful event. Students celebrated by watching a performance from the Southeast School Chorus and a slide-show presentation representing the 50 years of Southeast

history. Students also had an opportunity to participate in a raffle. Southeast families as well as staff donated prizes. The assembly concluded with our students singing "Happy Birthday" and our school song. No matter how small or large the event, we can always count on our families to support our children. Thank you PTA!

Best wishes for a great remainder of the school year, for our children and our community!

Matt Wilhelm-X-Games Medalist visited Southeast School to share with students his message of perseverance and his bicycle skills.

Chess Club: Emilie Cruz, Megan Wall, Mr. Demma, Ishmael Ottman, Owais Ahmed

A Message from Southwest Elementary School

News & Highlights

The second semester has been a very busy one at Southwest School. Following the Response to Intervention process, teachers have met frequently in teams to discuss individual student progress. Much of the discussion focuses on our core curriculum to ensure it is meeting the needs of most of our students. When additional support is needed, small intervention groups are created. These groups assist students who need more focused instruction on a particular skill. Students are having great success with this added support and collaboration.

What a BLAST!! On Friday, February 27, the students in grades 4, 5, and 6 participated in dance workshops in preparation for their spring music program. Each grade level learned, with a professional dance instructor, the choreography to a song they will sing in May. The instructors from the May I Have This Dance dance company then provided an all school assembly on the history of dance – starring some of the intermediate students! If that was not enough fun – after the assembly, Miss Firmstone, our Music teacher, “DJ”ed an all-school celebration – a “Bulldog Boogie” sock hop! Everyone had a great time, including our staff!!

Students are “reaching for the stars” to become a Math Star at Southwest School. Each day, more and more students achieve their grade-level math goal for mastery of math facts. A math medal is awarded, and their star is placed in the Math Star Galaxy!!

We are very proud of our sixth grade “Green Team”. Each day, brown bags are collected, counted, and recycled to the recycling dumpster during lunch time! Under the guidance of Mrs. Luchtenburg, cans, plastic bottles, and other recyclable material is collected for recycling. Many activities are being planned for Earth Week at Southwest School such as, a GO GREEN! assembly and an all-school field trip to see the movie EARTH. We can’t wait to think of more ways to show our care for and appreciation of our Earth!

Proud Math Stars: Max Grisolano, Christian Soto, Kevin O’Toole, Charles Taylor, Nick Viggiani, Olivia Cardinale.

Bulldog Boogiers: Sixth grade students and teachers enjoy “boogie”ing to their favorite tunes.

Southwest “Green Team” members: Abby Langevin, Maddie Berglind, Eileen Rohan, Olivia Romano, and Mrs. Luchtenburg.

A Message from Central Junior High School

News & Highlights

Central Junior High has been a very busy place! In January, the students were treated to a special visit from President and Mrs. Abraham Lincoln courtesy of the Evergreen Public Library. Our 7th graders took the Constitution test and of course, they all passed. Passing the Constitution test is a requirement for Graduation.

Our 7th graders have also been a part of the G.R.E.A.T program. A police officer from Evergreen Park comes in to teach 13 lessons. G.R.E.A.T stands for Gang Resistance Education and Training. The students participate in activities such as role-playing, classroom discussions, and small group work. Some of the topics of G.R.E.A.T are communication skills, anger management, how to resolve conflicts, responding to peer pressure, and making smart decisions. The students are required to present a project on the 13th day of the program that covers one or more of the topics. Some examples of the projects are posters, a power point presentation, and a skit that the students present on a DVD. The course is designed to help students resist negative influences in their lives.

The month of February included the annual Heart of the School Awards and Dance. The Book Fair was held and another historical visitor came to Central, Mark Twain. Over \$700 in books were purchased for our library with our Book Fair profits. The students also participated in "Stop, Drop and Read".

The second Administrator's Breakfast of the year was held recognizing students who were nominated by their teacher's for being responsible. Over one hundred people attended including students and their families.

After a grueling week of ISAT testing, the Central students took part in the "Panther Challenge", a two part gala marking the end of testing and a PBIS celebration. Teams competed against each other in a variety of activities. The top team at each grade level received "The Panther Cup".

Our 7th graders celebrated "Pi" Day. All curriculum that day centered around 'Pi' and at the end of the day, after measuring the circumference and diameter of a pie, they ate them!

Some Central students visited Northwest School on March 17th and took part in a St. Balderick's celebration. After

raising money for cancer, their heads were shaved in support of those who go through chemotherapy and lose their hair.

The end of March found our students involved with Career Day. During the afternoon, the students visited different rooms and learned about various career choices they might make some day.

Looking ahead much is happening for our 8th graders. They are going to see a play about Anne Frank as a culminating activity for the Holocaust unit. On April 29th, they will attend the annual 8th grade White Sox outing. Of course, June 8th is on their minds!

As you can see, Central is the place to be!!!!!!!

The Panther Challenge

"Pi" Day

Electrical Fire at Central Jr. High School

Information and communications technology unlocks the value of time, allowing and enabling multi-tasking, multi-channels, multi-this and multi-that.

Li Ka Shing - Technology - Time

So, what happens to multi-tasking, multi-this and multi-that when your communications technology is short-circuited? On Sunday, March 8, 2009, during the morning hours, the primary power lines behind Dunkin' Donuts on 95th Street were brought down by storms in the Evergreen Park community. The water soaked ground carried an electrical current through the ground and into the AT&T fiber optics. The fiber carried the current from the spot of the downed lines, underground to the pole on 94th Street just north of the junior high school and from the pole into Central Jr. High School. The fiber line terminates in the boiler room and the electrical charge caused a fire that destroyed all the fiber optic cable and all the telephone lines running into the building. The power surge also crippled the fire alarm system, the security system, some of the electric lines that power the boilers, a D1 telephone line connection to the Township Treasurer's office (for operating the district's general ledger accounting system), the district-wide telephone system server and Internet access throughout the entire school district. The electrical fire in essence shut-down the flow of telephone and Internet communications running into and out of the junior high school, and because of central telephone and Internet systems the electrical fire shut-down communication to/from all four of our elementary schools.

The electrical fire was discovered on Sunday afternoon by one of the district's employees, Roland Hernandez. Roland and his son had come to the building to investigate the reason for no telephone and Internet service at Central Jr. High School. Thanks to Roland's discovery of the fire and his quick response in fighting the fire and notifying the fire department, the fire damage was limited to the boiler room at Central Jr. High School. Because of the loss of some electrical wiring to the boilers at Central Jr. High School, the boilers were not able to provide heat to the school on Monday and for most of Tuesday, March 10. Classes were cancelled at Central Jr. High School on Monday, March 9 due to concerns about the possible lack of heat in the building and to provide time to gain a better understanding about the extent of the damage to the school's infrastructure. All four of the

district's elementary schools were in session; however, with very limited telephone and no Internet access.

Thanks to some amazing work by contractors from ComEd, AT&T, Moran Electric, Hayes (boilers), Affiliated Systems (fire alarm), and Call One (phones), the District was back to normal by Monday, March 15. The electrical repairs were completed within 48-hours and the boilers were completely functional by Tuesday, March 10. AT&T worked harder and faster than was anticipated, and all new fiber optic cable and new telephone lines were installed within a matter of days.

We are fortunate that the school district's insurance will cover the cost of all repairs and overtime by the district's buildings and grounds staff with the exception of a \$1,000 deductible included as part of the district's insurance policy coverage. The absence of communications technology for most of a school week was quite a respite in our ever changing technological world; however, the return to a world filled with immediate access to communications technology was inevitable with the benefit of unlocking "the value of time, allowing and enabling multi-tasking, multi-channels, multi-this and multi-that."

James Flanigan congratulates Roland Hernandez

Students Transferring out of Evergreen Park Elementary School District 124

If you are transferring a student out of School District 124, please contact the school secretary prior to June 12. District 124 schools are closed over the summer and the Release of Records form and Letter of Good Standing form will not be able to be completed after the school secretary leaves for summer break.

New Student Registration

If you are a parent enrolling a new student in Evergreen Park Elementary School District 124, please plan to register your child on August 12, 2009 from 1:00 – 3:30 p.m. and from 5:00 – 7:00 p.m. Registration will take place at Central Junior High School, 9400 South Sawyer in the Multi-Purpose Room. At registration you will need an original birth certificate, a driver's license, state I.D., or passport. You will also need one (1) of the following; mortgage papers, homeowner's insurance policy, a signed and dated lease and proof of last month's payment, e.g., canceled check or receipts (renters) and the landlord's certificate of inspection from the Village of Evergreen Park. Additionally, you will need two (2) additional items of identification demonstrating proof of residency (i.e. current monthly utility bills or credit card bills, automobile insurance policy.) Please note; all proofs of residency must be originals and copies will be made for our files.
